RE: Himco Waste-Away Service, Inc.

Dear Ms. Swales:

This letter will confirm our telephone conversation of Tuesday concerning the captioned matter. We are counsel for Himco Waste-Away Service, Inc. and are acknowledging receipt of your letter to them dated August 12, 1986. The information which you have requested is not only voluminous, but is all material which is at least ten years old. At the present time our client does not know exactly what records still exist for that period nor what type of information is contained in those records.

You have granted us an additional 30-day period within which to respond to your requests. You have also indicated that if we determine at the end of that period that we should need additional time, you would then grant additional extensions at that time.

Some of the information, namely the information concerning ownership of the landfill site is readily available and we will make that information available to you in the near future. You have indicated that for the rest of the information, your first priority would be an industrial generator customer list and secondly you would be looking for copies of invoices, shipping documents, bills of lading and other similar documents. You indicated that you would hope to determine from those documents what waste went into the landfill. Our client will begin gathering the information and we will be providing the information to you in the future.

MS. SUSAN SWALES
SEPTEMBER 10, 1986
PAGE TWO ---

Please also consider this our client's request pursuant to the Freedom of Information Act for the production of the Preliminary Assessment of Site and Site Inspection Report which are in your possession as well as any and all other reports, memoranda, correspondence or other written documents you may have in your file pertaining to this landfill.

Thank you for your assistance in this matter. I am looking forward to working with you.

Sincerely yours,

CHURCH, NILSSON & PAULEN

Geoffrey K. Church
